SKILLS

Curriculum & Instructional Design

→ Curriculum Strategy & Design
→ Standards Alignment
→ Lesson & Project Authoring
→ Teacher Professional Development

Community Engagement

→ Educator Community Building
→ Ambassador Program Design
→ Teacher Training & Support
→ International Partner Management

Editorial

→ Instructional Writing
→ Science & Physics Writing
→ Computer Science Writing
→ Editorial Direction
→ Copywriting

Project Management Tools

→ Trello
→ Monday.com
→ Pivotal Tracker
→ Gantt Chart — Google Sheets

WORK EXPERIENCE

Business Advisor & Learning Content Lead

MAR 2025—JULY 2026

CHIBITRONICS ↗, REMOTE · CONTRACT

- Partnered with engineering to develop the Explore Chibitronics learning hub (LMS), designing content structure and platform requirements.
- Led scoping and cross-functional coordination for a full Chibitronics website redesign, aligning design, development, and stakeholder input to improve content navigation and discoverability for educator, maker, and crafter audiences.
- Coordinated product and learning content development created jointly with contributors, managing briefs and deliverables to expand the Chibitronics paper circuits system.

Head of Education

FEB 2019—FEB 2024

STRAWBEES ↗, REMOTE

- Developed the creative learning pedagogy for Strawbees Classroom and translated it across all curriculum resources and educator materials.
- Managed and led a team of teachers in collaborative curriculum development for local implementation of lesson content in the US, ensuring fidelity to curriculum standards by state including Florida (NGSSS), Texas (TEKS), Common Core, NGSS, and more adopted across multiple states.
- Partnered with external educational resellers (Mackin Maker, DemCo), product partners (SAM Labs, micro:bit Foundation), and organizations (Arkki International, Marusys) to craft and adapt curriculum for localization across markets.
- Collaborated with United Nations Information Centres to craft products and lessons around the 17 Sustainable Development Goals (SDGs) alongside the Programme for International Student Assessment (PISA), creating fully enriched materials that connected hands-on learning with global challenges and real-world impact.
- Managed content production pipelines across a team of contracted educators, photographers, and designers, briefing, reviewing, and approving deliverables to maintain platform quality and delivery timelines.
- Worked closely with developers to build the Strawbees Classroom Learning Management System (LMS) and software, shaping content structure and platform requirements through the transition from product to SaaS.

SKILLS (CONTINUED)

Production Tools

- Figma
- Adobe Creative Suite
- GitHub, GitLab

EDUCATION

Bachelor of Fine Arts
UNIVERSITY OF MICHIGAN
2008—2012

Python Bootcamp
HACKBRIGHT ACADEMY
2016

Study Abroad — Fine Arts
STUDIO ART CENTER
INTERNATIONAL, FLORENCE
2010

WORK EXPERIENCE (CONTINUED)

Content and Community Manager FEB 2017—JAN 2019
STRAWBEES[?], GOTHENBURG

- Built the educational content and community function from zero, establishing content strategy, editorial workflows, and instructional design standards that scaled through a full platform launch.
- Authored and edited 100+ platform resources including step-by-step project guides, video tutorials, lesson plans, and printed kit guidebooks.
- Built a global educator community online and designed the Ambassador Program from framework to recruiting, onboarding, and supporting cohorts of educators across 10+ countries.

Educator, Innovation and Tech Specialist JUL 2014—MAY 2017
CHILDREN'S CREATIVITY MUSEUM[?], SAN FRANCISCO

- Developed curriculum and facilitation guides for coding, stop-motion, and design-challenge programs, training interns and staff to deliver them consistently to student field trip audiences.
- Wrote and maintained training materials and program documentation for education interns and museum staff.
- Networked and partnered with makers, edtech startups, artists, and educators to design and facilitate a monthly workshop series, bringing diverse creative and technical perspectives into hands-on learning experiences for youth.
- Crafted and facilitated InnovatED weekend workshops, designing unique design challenges that invited children to creatively express themselves through educational technologies such as MaKey MaKey, MIT Scratch, LittleBits, and Wonder Workshop.

LEARNING RESOURCES

Biome Builders

CURRICULUM AUTHOR — STRAWBEES

A 9-lesson curriculum exploring earth's biomes and ecosystems, teaching how plants and animals each play a role in their environment, from oxygen production to flood prevention. Designed to the UN 17 Sustainable Development Goals and US natural science and biology standards.

- [Course ↗](#)

Renewable Energy

CURRICULUM AUTHOR — STRAWBEES

A 6-lesson curriculum on wind, solar, and geothermal energy, teaching students to evaluate renewable systems and their role in sustainable development. Aligned to the UN 17 Sustainable Development Goals.

Supreme Simple Machines

CURRICULUM AUTHOR — STRAWBEES

A 10-lesson curriculum on Newton's laws and simple machines, building physical intuition for force, motion, and mechanical advantage. Aligned to US state science standards.

City Building

CURRICULUM AUTHOR — STRAWBEES

A curriculum on urban planning and city design, guiding students through housing, transportation, parks, schools, and other essential amenities while weighing sustainability, accessibility, and community engagement. Aligned to the UN 17 Sustainable Development Goals.

- [Course ↗](#)

Adventures for Little Inventors

AUTHOR — STRAWBEES

Twelve-book series paired with maker kits for elementary students, 48 storytelling-driven activities introducing invention and open-ended design thinking.

- [Book Collection ↗](#)

Explore Chibitronics Hub

WRITER & EDITOR — CHIBITRONICS

A resource hub of tutorials and guides teaching paper circuits fundamentals to educators and makers.

- [Explore Chibitronics ↗](#)

Video Series

WRITER, DIRECTOR & PRODUCER

15 educational video episodes across 2 series, scripted and produced to teach electronics and circuits concepts visually to young learners.

- [Launchpad series ↗](#)
- [Circuit Sticker series ↗](#)

Published Books

EDITORIAL & DESIGN — CMK PRESS

Layout, illustration, and editorial contributions to three published STEM education books.

- [The Invent to Learn Guide to the micro:bit ↗](#) (2023)
- [Scrappy Circuits ↗](#) (2021)
- [Making Science ↗](#) (2016)
